Scholarships: November 2023 Flyer #2

Kate Fitzgerald, Chairperson: Sierracallie82@gmail.com

Continuing Education Scholarship is an opportunity to gain assistance in returning to college and achieving a goal. The total amount awarded is \$1250 and paid directly to the American College or vocational/technical/trade school of the awardee's choice.

Who couldn't use an extra \$1250?

Just remember if the awardee has not chosen a school the money goes into escrow and will be awarded when the student has made their final decision, should they decide not to attend the money goes back into the scholarship program, therefore only those with the intent to pursue an education should actively apply.

What are the qualifications:

- Auxiliary members, spouses & children
- Must have been a member for one year by the application date.
- Must be in financial need to return to college.
- Must be 21 years of age by February 15, 2024

One winner in each of the four conferences. Let's share this terrific opportunity.
