Bulletin #1
July 2024

Goals for this year's Youth Program

Sponsoring & working with Youth Groups

Sponsor a youth group and have youth become involved in any of our Programs, including activities to honor our veterans around military holidays or include our youth in helping out our service members and their families.

Youth Groups Supporting Our Veterans Citations

This Citation is one way to acknowledge our youth groups for what they do in honoring our veterans. Whether it be a service project or helping out with a service member and their family.

Patriotic Youth Award

This award is for the individual youth and their efforts.

Patriotism through Literacy

This is a fun and exciting part of the program. This, I will explain more in depth in a separate bulletin as I will with each aspect of this program. As you can tell it is about reading and introducing youth to times and people in our history. There is so much for our Youth to learn from this section of this Program and our members as well.

Illustrating America

One of the bigger parts of this program. Open to any Student in Grades K-8 by March 31st. Obviously an art contest. We will get into this one more a little later.

We will get into each of these in more detail separately.

I wanted let you know what were the parts of the Youth Program as we get started for this year.
