Wreaths Across America

in 1992, Morrill Worcester, owned a wreath company in Maine, had extra wreaths leftover, and decided to place them at the Arlington National Cemetery. What started as an act of kindness has resulted in 2.7 million., wreaths being placed at over 3700 cemeteries to honor and remember our veterans. At the quarterly meeting I had everyone make a wreath ornament so they would remember. If you Google Wreaths Across America, you will come to a fillable form where you may sponsor wreaths to order.

Veterans Day - What can you do?

- Visit a school and hand out flags or put on a flag demonstration program showing them how to fold the flag or properly raise and lower it.
- Attend and participate in your town's services and Veterans Day program.
- Go to the cemeteries and place flags on veteran's graves. Get help from scout troops.

P.O.W./M.I.A. update: six Army veterans from World War II, three Navy veterans from World War II, and a Korean veteran from World War II, all been recovered and identified this month. They have

been laid to rest. Let us hope more come home soon.

Happy Halloween to all, stay safe and healthy. Please send me a report before the quarterly in January.
