National President Lois Callahan is bringing this portion out to the forefront

It is available to Our members and our families over the age of 21 to further our educations.

It would be useful for educational expenses or to help pay tuition fees.

All monies paid directly to the educational institution whether it be technical or university level.

This special Project is to help Grow the Continuing Education Scholarship Escrow Fund so we can award more money to students per conference per year.

Think about holding a fundraiser. Raise money for Continuing Education.
